- **I**ntegrity
- **R**esponsibility

Advisory Services

We advise organizations on how information technology (IT) can help them achieve their business objectives, whilst being 100% vendor-neutral.

Business Analysis

We-Consult helps your organization identify business issues (problems, opportunities, and needs), define solutions, and implement changes to solve those business issues.

Business Process Improvement

We help your organisation improve efficiencies by focusing and streamlining underlying business processes, to best support the organisation's strategy and operations.

Application Development

At We-Consult; we don't just create custom software or mobile applications, we build solutions for your business problems.

Business Intelligence (BI)

We analyse and interpret your data, to provide insights that can inform how you differentiate yourself from your competitors.

Change Management

We have specialists to assist your organisation manage the impact of a significant change (cultural, process or technological) to your most important stakeholder, your employees.

What Do We Do
We service with great respect

Customs and Trade Data Analysis

Through our access to the South African importation and exportation of goods data; we can help you gauge the size of the market for your product as well as identify exporting targets.

Enterprise Architecture

We articulate the business context and design the IT capabilities needed to support your business, to ensure optimum interaction between people, process, information and technology.

Project Resourcing

We provide you with experienced project resources, to complement your capacity in times of need

Customs Tariff Classification

We ensure that your imported and/or exported commodity is categorized by nature; composition; or use thereof, which ultimately determines the duty rate of that commodity.

Programme Management

We provide reliable and flexible controls, support and project methodologies; vital for good strategic and tactical decision-making.

Software Testing

We validate and verify that your software program, application or product performs as intended.

What Do We Do
We service with great respect

How Do We Engage

We do have a method

Like any business, we do things a certain way, but we have also found that adapting to our clients' style of work, gets real results. Being on the same page means we get to the right solution faster and get the best out of the available resources. We have an unfailing commitment to the highest level of our craft and here's our approach that helps to maintain our standards:

Consult

We ask you questions and carefully listen to your answers.

Brainstorm

We carefully consider your answers and conceptualize.

Develop

We collaborate with you, to bring the concept to life.

Produce

We deliver a complete solution that meets your expectations.

InvoiceReady

A Purchase to Pay solution, with travel & expense claims and mobile approval.

eSafety

An occupational health management solution.

SmartCity

A client facing solution for the consumption of diverse services e.g. electricity, water, etc.
